

QHSE Policy

Quality Policy

Sembcorp Energy India Limited (SEIL) is committed to achieve and sustain world class standard of quality in power generation and supply to customers by adopting, innovating, and continually improving the best Industrial practices in operation, maintenance, procurement, safety, housekeeping, and manning of power stations, while complying with all applicable requirements.

Health, Safety & Environment Policy

SEIL considers HSE as its core value and is committed to:

- Protect and improve the Health and Safety of all stakeholders involved in its operations
- Comply with regulations to ensure protection of the environment in which it operates
- Raise the HSE awareness and capabilities in our staff, business partners and communities, to deliver better HSE outcomes
- The idea that all occupational illness, incidents are preventable
- Value Safety at par with Quality, Schedule & Cost
- Ensure all its employees and stakeholders are trained to have required competence to undertake their work with minimum risks to HSE
- Ensure compliance to statutory limits, norms and organisational requirements pertaining to environment, occupational health, and safety
- Conserve the natural fauna, protect the environment; minimise pollution & generation of solid, liquid and gaseous waste
- Periodically Assess, Control and Monitor HSE activities by providing adequate resources
- Continually improve occupational Health, Safety, and Environment Management System through systematic use of skills & technology
- Foster a culture where the lessons learned are shared with all stakeholders
- Respect safety principles and procedures as a condition of employment
- Proactively work towards being recognised for excellence in HSE management

This Policy shall be widely communicated, reviewed periodically and amended when felt necessary.
